## EXPERIENCE

### Line Cook

2023 - Present

The Keg Steakhouse + Bar · Ottawa, ON

Working in a high-volume kitchen environment, managing prep and service under pressure with strict quality and consistency standards.

### Order & Inventory Platform

2026 - Present

Personal Project · Java / Spring Boot / PostgreSQL

Production-style backend with modular monolith architecture, JWT-based security, transactional order processing and Docker deployment.

### Telegram Media Downloader

2023

Personal Project · Python / Telethon

CLI tool to download media from Telegram channels and chats. Supports filtering by type, date range and message offset, with session-based auth and .env configuration.

### Portfolio Website

2026

Personal Project · HTML / CSS / JS

Designed and built a responsive personal portfolio with a projects slideshow and a validated, Formspree-powered contact form.
