

DMYTRO DEHTIAROV

Full-Stack Developer (Java / Spring Boot) • Computer Programming Student, Algonquin College

Ottawa, ON, Canada • +1 (613) 600-8353 • degtyarev.dmitry02@gmail.com • github.com/dmytro-dehtiarov
linkedin.com/in/dmytro-dehtiarov • dmytro-dehtiarov.com

Detail-oriented Computer Programming student at Algonquin College with hands-on experience building and testing object-oriented Java applications with Spring Boot, full-stack apps with Node.js, Express, and React, and relational databases on Oracle and Azure SQL. Strong problem-solving skills developed through three-plus years in a fast-paced, team-based hospitality environment. Quick learner, reliable under pressure, and comfortable working independently or as part of a team.

PROJECTS

Order & Inventory Platform

2026 - Present

Personal Project • Java / Spring Boot / Oracle / Docker

Production-style order and inventory backend with modular monolith architecture, Oracle persistence via Flyway/JPA. JWT auth and order lifecycle logic in progress.

Study Spot Finder

2026

Academic Project • Node.js / Express / MongoDB / Pug

Led a 3-person team: owned the architecture and feature decisions, distributed and reviewed issues, and drove backend and view-layer implementation. Map-based study spot finder with session auth and role-based access control.

Telegram Media Downloader

2023

Personal Project • Python / Telethon

CLI tool to bulk-download Telegram media with type and date-range filters.

Portfolio Website

2026

Academic Project • HTML / CSS / JavaScript

Responsive personal portfolio site built with vanilla HTML, CSS, and JavaScript.

EDUCATION

Computer Programming Diploma (Co-op)

2026 - Present (Expected Dec 2027)

Algonquin College, Ottawa, ON • GPA 3.9 • Dean's Honour List

Key coursework: Object-Oriented Programming (Java), Database Systems, Web Programming, Design Patterns, Systems Analysis & Design, Enterprise Application Programming.

Practical React

2023

SoftServe Academy, Online

Frontend Development

2022

SoftServe IT Academy, Online

Bachelor's Degree, Marketing

2021 - 2024

Alfred Nobel University, Dnipro, Ukraine

SKILLS

Languages: Java, JavaScript, Python, SQL / T-SQL

Frameworks & Libraries: Spring Boot, React, Redux, Node.js, Express, Mongoose

Databases: Oracle, PostgreSQL, MySQL, SQL Server, Azure SQL, Microsoft Access, MongoDB

Tools & Practices: Git, Docker, Linux, JUnit, REST APIs, Agile / SDLC, Database Administration

EXPERIENCE

Administrator

Jun 2021 - Feb 2022

KiddyChef • Dnipro, Ukraine

Ran daily front-of-house operations for a children's entertainment venue: order management and payments through the Poster POS system, basic bookkeeping, and coordinating staff during shifts.

Remote Assistant

Feb 2022 - Present

KiddyChef • Remote

Continued supporting the team remotely on an on-call basis: troubleshooting the Poster POS system and training new staff on the processes I used to run.

Line Cook

2023 - Present

The Keg Steakhouse + Bar • Ottawa, ON

Manage food prep and service in a high-volume commercial kitchen under strict quality, consistency, and timing standards.
